Our very popular program continues this year with Respite Days being the second weekend of every month. During that weekend we will pay for up to 8 hours of Respite to an approved provider. We appreciate the additional funding we have received from United Way of Western Nebraska.

Remember, providers **MUST** have a background check on file to be paid. You must **submit Reimbursement Forms by the last day of the month**. For example the last day to receive respite days forms for July is July 31. We have had several people sending in 3 or 4 months at a time which really makes it hard to budget and skews our numbers for reporting.

Take a second for yourself the second weekend of the month.
